

fold second and tape closed

Thank you for joining the Headache Australia national register.

The register is an important resource to help Headache Australia provide more research to bring more efficient and effective treatments and take further steps on the road to recovery.

Headache Australia is a division of the Brain Foundation and your name will be added to the Brain Foundation data base so you will receive our bi-annual Brainwaves newsletter. This will keep you informed of any developments with new treatments or research projects. If you have indicated that you do not have an e-mail address, this is the best way to stay in touch with Headache Australia.

If you do have access to the internet, then please, look up our web site. There is a lot of up to date information and a forum for discussion open to all.
